

# AU360

**A**utomatico  
**SLIDING DOOR OPENER**

**Automatico**

# AU360

# Technical datas

Power	100W
Max door weight (single)	1* 220kgs
Max door weight (double)	2 * 180kgs (360)
Door leaf width	500-1500mm
Opening speed	max .75cm\s/(per leaf)
Closing speed	max .60cm\s/(per leaf)
Electric motor	24VDC with encoder
Pause time	60sec.
Voltage	AC100-250V 50Hz-60Hz
Operating tempertaure	-10°C~70°C
Degree of protection	IP22

## Function working model

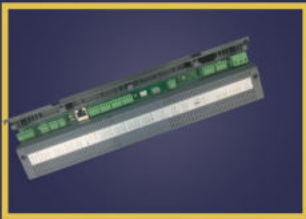

Automatic	●	fire alarm terminal	●
Always open	●	Access keypad terminal	●
Partial open	●	Inter lock function	●
Full lock	●	Photocell	●
One way	●	UPS	○
Self-learning	●	Electronic lock	●
Self-lock	●	OEM service	●
Error massage	●	OE certification	●
Anti-clampfunction	●		

● : standard function ○ : optional function - : no function

Belt Connector

Belt

Photocell

Microwave Sensor

Combined sensor

# SLIDING DOORS OPENER

# AU360

## COMPONENTS

### Motor features

1. Motor type: 24V 100W
2. Gear ratio: 15:1
3. Encoder: DT-100Z

### Au360 Advantages

1. Fast and perfect operation
2. Door status supervision
3. Error message
4. Working times
5. Date setting
6. Working life setting
